

Worksheet 3

In Your Sleep

Writing a Report

1. Another name for insects and spiders is 'minibeasts'. Brainstorm as many minibeasts as you can think of. Here are a few examples to get you started: earwigs, bees, millipedes....

2. Now choose one of the minibeasts to research. Locate the following information about your minibeast and then write an animal report about what you have discovered. Don't forget to use illustrations and diagrams to support your information.

- **Body Features:** What do they look like?
- **Habitat:** Where do they live?
- **Food:** What do they eat?
- **Breeding Habits:** How do they have babies?
- **Predators:** Does anything eat them?
- **Interesting Facts**
