

Worksheet 4

The Titanic

Explaining Icebergs

'Not far ahead, unseen in the darkness, was the only solid thing that floats on the ocean that is even bigger than a giant passenger ship...it was a massive iceberg.'

Water is the only substance that can come in three different forms: a **solid**, a **liquid** and a **gas**.

1. At what temperature does water freeze? _____

2. At what temperature does water boil? _____

Research icebergs and write a simple explanation text about **how icebergs form**. Use the following format to help you:

Planning an Explanation Text

Title

A how or why question such as 'How do Icebergs Form?'

Introduction

Write a simple general statement about icebergs.

Sequenced Statements

Describe the formation of the iceberg in detail. Use diagrams if possible.

Concluding statement

End the explanation by briefly explaining what has happened.

Resources

List the author, title and publisher of any resources you have used.
